**Baylor Scott & White Health**  
**Dallas, TX**

Dear Baylor Scott & White Team,

I am interested to apply for an **internship or early-career role** within the **Medical Library / Health Information Services** team at Baylor Scott & White Health. Your system's recognized excellence in clinical care and innovation—as evidenced by its strong performance in national rankings and advanced library & education services — is deeply aligned with where I aim to grow.

Having recently been honored with the **Mayo Drake Award 2025**, I made connections at the conference and learnt a lot about Baylor Scott from their professionals. I am looking to transition to healthcare library and informatics. My background includes **clinical data analysis, regulatory documentation, and hospital-based analytics**, and I'm passionate about using that foundation to impact how clinicians, researchers, and patients access vital information. My experience across **Merck Healthcare, Merck Life Science, and Manipal Hospital** has shaped my commitment to building reliable, accessible information systems that empower clinicians and improve patient outcomes.

I am eager to contribute to a team where accurate, accessible medical information supports patient care, research and education. I am committed to learning and growing in this environment—and bringing enthusiasm, analytical rigor, and a service mindset to your library operations.

Thank you for your time and consideration. I would welcome the opportunity to discuss how I can support your team's mission and contribute to Baylor Scott & White's library and information services.

Sincerely,  
**Niveditha Shivashankar**
